January 2005

Greetings in Jesus Name,

Praise God! It was a wonderful end to a very prosperous year in the work of the Lord in Southern Mexico.

Scott, Rita and Jenny along with Dustin and Alicia arrived on Christmas Day.

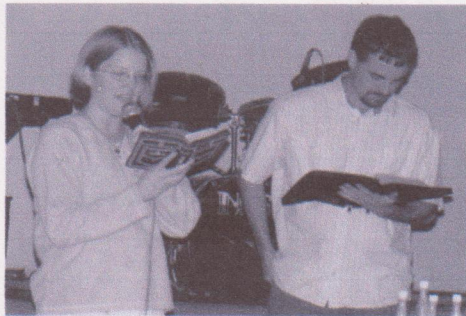

We were able to hold 2 night crusades in 3 towns starting in Cuyo de Guadalupe, Tabasco. In this town in 1984 believers went to preach and were run out with machetes! They had cuts in their equipment when they left! Another attempt was made in 1991 with few results. After much prayer and fasting we went in this trip and saw the hand of God move mightily.

With the truck full of people heading for the services at Cuyo de Guadalupe Jenny, Teresa and a friend decide to ride in the back.

Many were saved, healed and touched by God. Roberto has included this town in his weekly places of ministry. Within 3 weeks of having a mission established land has been donated and permission granted by town officials to build a church. Praise God!

From Cuyo we continued on to Playa Larga, Tabasco where the Mayor gave us free use of the Town Hall. Many came to the meetings those two nights. The mayor came the second night and God did major restoration for the church there.

People came from as far as 8 hours away and 6 different states just to be in the meetings.

We continued on to Jobal, Tabasco where the Lord confirmed His Word with signs following. The Lord is firmly establishing the work there and it is rapidly becoming a very established church even though it's only 2 years old.

In the February newsletter we will outline in detail what God is leading us to do in the work here in Mexico. In August Scott was able to meet with all the leaders of the "Community Churches of Mexico" (which is the legal name of the churches the Sower Ministries started in Mexico).

Jenny and her friend in Jobal

We are starting a new organization called "The Sower Churches of Mexico". This will give us free legal right to hold meetings in homes, build churches, hold city-wide crusades, preach on

IMPORTANT NEWS!

In mid 2004 we began to feel that God was about to do a "new thing" in our lives. We did not know what, but we could feel the Spirit touching our hearts. After much prayer, the Lord showed each of us individually that we would be moving near the Dallas/Fort Worth area. This is not something we take lightly, but we know we have a word from the the Lord. We don't know everywhere the Lord will lead us in our lives. We live our lives one day at a time and one step at a time. We are confident and know that as we take the first step and trust Him He will guide us all the way.

There is much to be done. There is still work to be done to finish this house, but with His help it will all be done in His time.

We really covet your prayers during this time that the Lord would give us wisdom and understanding and we would go in his timing. Amen?

PRAYER REQUESTS

Building Projects,

Land has already been donated in Cuyo de Guadalupe, Tabasco for a church building. The town officials have granted permission to begin construction of a church building there.

We are also looking for land to build churches in Emiliano Zapata, Playa Larga and Jobal, all in the state of Tabasco.

TRIP IN MARCH

We have a trip planned for March. We would really appreciate your prayers for souls leading up to and during this time. We should have exact dates at the time of our next newsletter.

Remember to keep us in your prayers as we have many important decisions to make in the next few months.

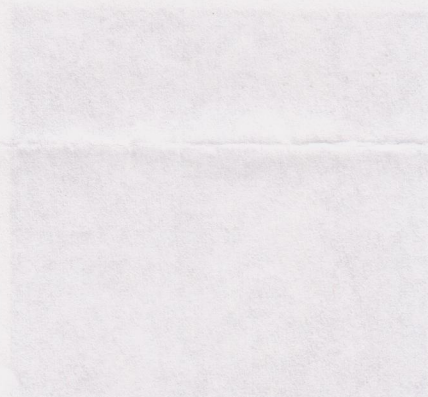

Jenny with Bro. Roberto

Bro. Roberto lives in a poorly built wood plank house with a dirt floor. We have been able to help him buy the material to lay a concrete foundation and start the construction of a block house that will be far more secure than the one he is living in now.

In His Work, The McDonald Family

In the February newsletter we will tell you all what God is doing in the work here in Mexico. Bro. Roberto was able to meet with all the leaders of the "Community Churches of Mexico" (which is the legal name of the churches the Sower Ministries started in Mexico).
