Ministry *news*

Favor with the Government

Villahermosa, Mexico

Greetings,

The Mexican Government has finally approved our church organization in Mexico. This is a great victory that has been many years in the making.

We are now a Religious Association in Mexico, recognized on a national level. One of the biggest things this encompasses is that the Association in Mexico can now own and control properties and buildings within Mexico. In years past, the church buildings belonged to the Federal Government.

It will be much easier to secure permissions to hold meetings in private homes and in public or government facilities.

The Mexican Secretary of Religious Affairs has pledged his support to us to help in any way possible. This includes getting our American ministry teams proper ministry visas, so we will no longer have issues with State and City officials.

With this new backing, we are already in the planning stages for a major crusade to be held in the City of Emiliano Zapata, Tabasco at the end of October of this year.

Please stand with us in prayer for a mighty harvest of souls!

A Changed Life

In a letter I received last week, Rosalba writes, "The man in the picture getting baptized by Pastor Roberto is named Carlos. His wife is a believer, but he actively practiced witchcraft. He was saved, delivered and felt that God moved on him to sell his business and move to Tabasco from Veracruz [halfway across Mexico] to be discipled under this ministry. His wife will be working with our young people."

Crusade Report

La Constitucion, Tabasco, Mexico

People touched by the Holy Spirit as Roberto ministers in La Constitucion, Tabasco

Pastor Roberto and the ministry team just completed a crusade in La Constitucion in the State of Tabasco in Southern Mexico.

Many came and accepted the Lord as their Savior, and many were touched by the presence of God.

One family traveled over 4 hours to

be in the meetings. Both the husband and wife gave their hearts to the Lord.

The church in Constitucion was really encouraged and we have had reports of an increase in numbers at the local house-church.

Going Digital

This is the last update we will be sending out in letter form. We are changing over to a digital format.

However, we will continue to send letters to churches and to individuals who request it.

Please contact us if you or someone you know would like to continue receiving a paper copy of this newsletter.

Church Plant

Since 1973, over 140 churches and missions have been established throughout Central America and Mexico through this ministry.

This year we have started a new church in a town called Netza in the State of Tabasco, In Southern Mexico. "Netza" is a shortened version of the real name of the town which is "Netzahualcoyotl".

There are a lot of people hungry for the Gospel in this town.

Please continue to pray for Pastor Roberto and the ministry team as they hold weekly meetings in Netza.

There have been numerous salvations in this town. The team has already held a couple of baptismal services in the Usumacinta River near Netza.

The Team

Scott & Emma McDonald

David & Paula Mapp

Prayer Requests

- Favor and SOULS in the upcoming Crusade in Emiliano Zapata
- Funding to finish Roberto's house and Mexico ministry headquarters
- Two trucks in good working condition
- Safety for the ministry team as they travel and hold meetings.
